The results achieved in the entrance exam have a maximum of 60 points. The maximum number of points that a candidate can acquire during ranking is 100.

The candidate who has won, as a third or fourth grade student, one of the first three prizes in a national competition organized by the relevant Ministry or in an international competition in Mathematics, Physics or Informatics, shall not take the entrance exam. For such a candidate, the maximum number of points is assigned for the entrance exam.
